GRADUATE SCHOOL OF MEDICINE

ABOUT PERDANA UNIVERSITY

Perdana University is envisioned to be an education–research hub for the region fulfilling the needs of the nation for competent health science graduates. It was established as a Public Private Partnership (PPP) initiative by Academic Medical Centre Sdn. Bhd., a subsidiary of Chase Perdana Sdn. Bhd. with the support of the Prime Minister’s Department. The University is well equipped with leading edge teaching and learning facilities.

DEAN’S MESSAGE

Welcome to the Perdana University Graduate School of Medicine (PUGScM). We are the ONLY medical school in Malaysia offering a four–year graduate entry medicine (GEM) program for aspiring doctors.

PUGScM admitted its first batch of students in September 2011. These students graduated at the Perdana University Inaugural Convocation on 25th September 2016. These Graduates have already embarked on their medical careers in various hospitals around the country and overseas (including the United States).

The PUGScM curriculum incorporates current clinical trends and evidence–based medicine with an emphasis on research and innovation. It is based on the US Medical curriculum with the United States Medical Licensing Examination (USMLE) as the Exit Examination. Successful graduates in addition to practising in Malaysia are eligible to pursue a US Medical Residency Program and Practice in the United States. This option leads to an earlier specialisation in one’s chosen specialty. This is in tandem with our mission to provide an international educational model that supports intellectual discovery, nurtures creativity and embodies innovative knowledge.

Over the years, PUGScM has recruited some of the best academic faculty to provide outstanding education in an inclusive environment. The PUGScM experience is demanding, but it is also exceptionally rewarding and fulfilling. You will have an exciting journey as you discover your true potential and expand your horizon.

The faculty and I, look forward to having you at PUGScM. I am confident that your choice of PUGScM as the pathway to your medical career would be a wise one.

Please browse through our website for more information and thank you for your interest.

**PROFESSOR DATO' DR.
HJ. MOHAMAD FAROUK
ABDULLAH**

Clinical Professor in
Obstetrics & Gynaecology
MBBS (Malaya),
FRCOG (London),
CRM (Malaysia)

Early Clinical Exposure with Simulated Patients, Primary Care Clerkship and Clinical Rotation in Hospitals

Clinical Experience

Academic Team comprises of Experts in their respective Fields

World Class Faculty

Only Graduate Entry Medical Program in Malaysia with a Dual Pathway - Locally and USA

Graduate Entry

STUDENT CENTERED

Students are taught Translational Medicine with the goal of applying Innovations from Research for the benefit of Patients

Bench to Bedside

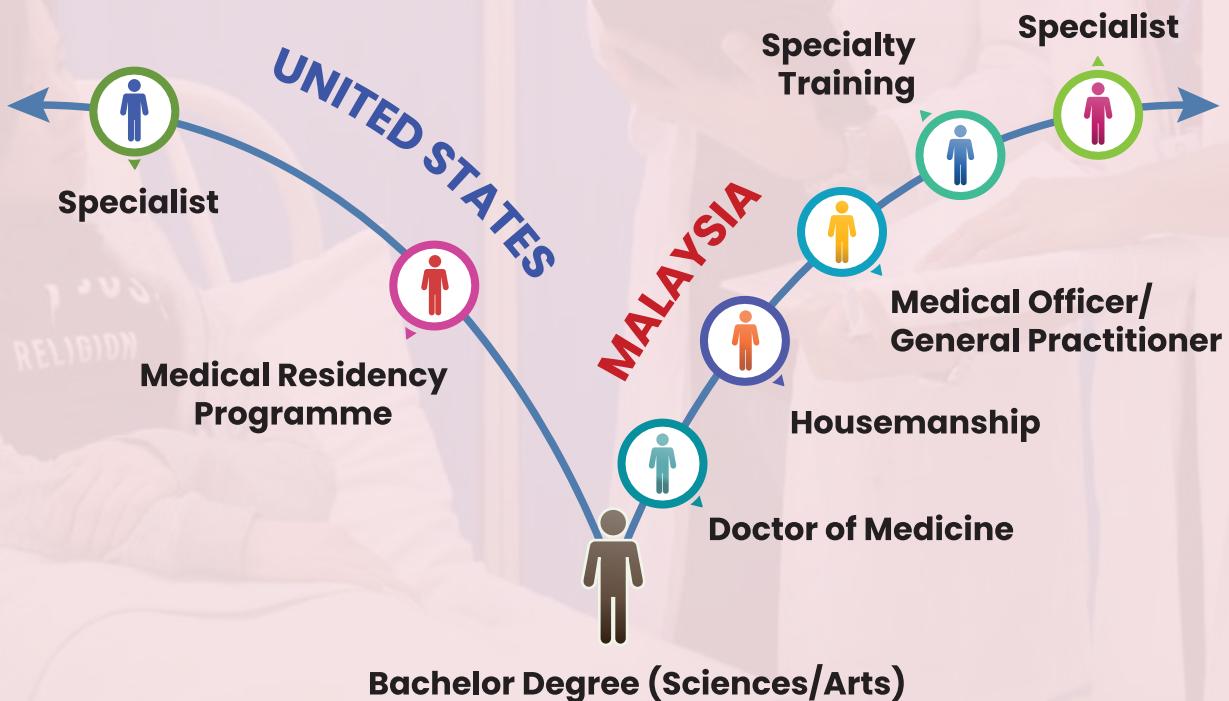

Opportunities for "Hands-On" Experience in Cutting-Edge Medical Research

Research Exposure

State-of-the-art Facilities

Educational Facilities and Clinical Skills Unit are unique and specially designed for an Optimal Learning Experience

PUGScM-DUAL CAREER PATHWAY

ADMISSION REQUIREMENTS

Bachelor's Degree

Science:
Minimum CGPA of 3.30/4.00
or equivalent

Arts:
Minimum CGPA of 3.75/4.00
or equivalent

English Language Proficiency

MUET: Band 3
or

AN INNOVATIVE CURRICULUM

We prepare our students to understand an individual patient's health in the context of the interactions between their biology and the environment. Concepts are concurrently reinforced with clinical experience, scientific concepts and critical thinking throughout the educational experience, building a confidence level in our graduates that gives them an outstanding foundation for internship and postgraduate training.
