## **Southern Alberta Institute of Technology**

**(SAIT)** is Calgary's oldest post-secondary institution and Canada's first publicly funded polytechnic. The Trades and Technology Complex, provides skill-based training space in energy, construction, and manufacturing. Around 60% of the work on this complex was done by SAIT alumnus.

SAIT has a student body of **50,000 students** and offers two baccalaureate degrees, four applied degrees, and 84 diploma and certificate programs, as well as apprenticeship trades, continuing education, and corporate training courses. SAIT is a member of Polytechnics Canada. A polytechnic is a skills-intensive, technology-based institute. It typically has close industry ties, emphasizes applied research and innovation.

**Why SAIT?** SAIT is built on passion shared by their students, faculty and staff to shape graduates into entrepreneurs, leaders, and community builders. SAIT welcomes **2,000 international students** from **100 countries** annually.

A SAIT education offers students practical experience and theoretical knowledge in a real-world context. Students benefit from hands-on learning in unique labs and classrooms, participation in applied research on campus with industry partners and, in many programs, workplace practicums that enable them to apply their learning to meet current industry needs. SAIT's close partnerships with industry, government, and other post-secondaries help to give students the skills and connections they need to succeed in local, national and global economies.

# 65 Academic Programs to Choose From at SAIT
