A levels at a leading university

2020-21

91%

of A2 level grades were A\*-B in 2018

Unique

opportunity to study A levels on a university campus

92%

of students recommended for medical school in 2018 successfully gained a place

100%

of students recommended for Cambridge and Oxford in 2018 were invited for an interview

7 students

average class size in 2018-19

“I am immensely proud of the unique and highly supportive nature of the Newton Programme. We offer high achieving and committed students the very best opportunities to develop into confident young adults ready to progress on to the degree of their choice.”

Jodi Kent, Newton A level Programme Manager

If you are a high-achieving student who is passionate about the sciences, mathematics or economics, the Newton Programme offers you more than a standard A level experience.

It is designed for UK and international students who are talented enough to become tomorrow's leading medics, scientists, engineers, mathematicians and lawyers, and produces exceptional rates of success.

The Newton A level Programme takes its name from one of the world's most famous and influential scientists, Sir Isaac Newton, who acknowledged that his many achievements drew upon the help of his peers and those who came before him. We look forward to welcoming you to our own Newton community!

# Reach your potential

You could be the next student to achieve exceptional A level results and gain a place at a top university, such as Cambridge, Imperial, London School of Economics and Political Science (LSE), University of East Anglia (UEA) and medical schools in the UK.

## What is special about the Newton Programme?

- Cambridge Assessment International Education (CAIE) A levels are recognised by universities around the world as one of the most prestigious of all A level awarding bodies.
- Professional guidance on applying to top UK universities and medical schools, including interview preparation.
- Lectures and workshops by leading university academics give you a taste of university-style teaching from experts in their field.
- Our impressive INTO Centre, offering excellent living and learning facilities, means that you can focus on your studies.
- Support in obtaining work experience and enhancing your university application and CV.
- Inspiring enhancement activities to aid your learning and boost your employability.

## Why should you study A levels at a university?

Studying A levels on a university campus will support a natural, confident progression to an elite university. You will enjoy a programme of enhancement activities, which will help you make the most of our university campus location, with the opportunity to attend workshops and guest lectures with leading university academics.

With access to UEA facilities, as well as the Students' Union clubs and societies, you will meet with current undergraduates and be part of the University community. By the end of your A level programme, you will be a more independent learner with the confidence and maturity to succeed on a demanding undergraduate degree programme at a top university.

Achieved grades:

**A\*A\*A\*A**

“The UK offers a solid and systematic education system. The qualifications are recognised globally, so I felt that it was more beneficial having qualifications from here.”

Wen Yi, Malaysia

 Progressed to Medicine at the University of Nottingham

## Your opportunity to excel

Below is a selection of some of our top Newton students' results and progression universities.

Home country of student	Result	Destination university	Destination degree
Taiwan	A* A* A* A*	University of East Anglia	Medicine
Russia	A* A* A* A*	Newcastle University	Medicine
Malaysia	A* A* A* A*	Queen Mary, University of London	Medicine
Singapore	A* A* A* A*	University of Glasgow	Medicine
Vietnam	A* A* A* A*	Hull York Medical School	Medicine
Malaysia	A* A* A* A*	The University of Manchester	Dentistry
Hong Kong	A* A* A* A*	University of Cambridge	Engineering
Vietnam	A* A* A* A*	University of Cambridge	Engineering
Malaysia	A* A* A* A	Imperial College London	Design Engineering
Vietnam	A* A* A* A*	London School of Economics and Political Science	Accounting and Finance

A\*-A in 2018

## Progression to top UK universities

Here are the percentages of Newton students who:

 Progressed to a university in the UK:

- Top 10: 40%
- Top 20: 70%
- Top 30: 75%
- Top 40: 95%
- Top 50: 100%

 Progressed to a UK medical school:

- Top 10: 14%
- Top 20: 71%
- Top 30: 100%

 Progressed to Science and Medicine:

- Top 10: 27%
- Top 20: 67%
- Top 50: 100%

 Progressed to Engineering and Mathematics:

- Top 10: 100%

 Progressed to Economics, Business and Actuarial Science:

- Top 10: 50%
- Top 40: 100%

Please note: UK rankings were taken from The Times and The Sunday Times Good University Guide 2019

## Key facts

### Start dates

September or January

### Programme length

5 or 6 terms

### Class size

14 students per class maximum

### Class hours

20 hours per week minimum, assuming four A levels are studied

### Age requirement

16 years or older when you arrive

### Academic entry requirement

Newton Programme candidates must demonstrate potential for entry to top-ranked universities, such as Oxford, Cambridge, US Ivy League universities or medical schools.

For entry onto the programme, you must have completed your education to Year 11 level, achieving the equivalent of six 6/B grades at GCSE.

### Students intending to progress to Medicine, Dentistry or Veterinary Science:

7-9/A-A\* at GCSE (or equivalent) in at least six subjects, including mathematics and science. We would not advise that any student attempts to gain entry to a UK medical school without meeting this minimum requirement.

### English language entry requirement

**5 term:** IELTS 5.5 (with a minimum of 5.5 in writing and no less than 5.0 in all other subskills) or equivalent.

**6 term:** IELTS 5.0 (with a minimum of 5.0 in all subskills) or equivalent.

### Students intending to progress to Medicine, Dentistry or Veterinary Science:

**5 and 6 term:** IELTS 6.0 or equivalent.

If you are applying for a Student Tier 4 visa, you must have an IELTS for UKVI to apply for your visa. If you have any questions about this test, our experienced team will be happy to help you. Email your questions to: [SELT.Help@intoglobal.com](mailto:SELT.Help@intoglobal.com)

### Further guidance

For further guidance, please check with the INTO Admissions Office ([ukes@intoglobal.com](mailto:ukes@intoglobal.com)) or your local education counsellor.

# Newton Programme A levels

The programme offers A levels in the core sciences, mathematics, psychology and economics. Both a five-term and a six-term programme are offered, leading to an undergraduate degree at a top university.

### An international A level syllabus

More than 545,000 students in 134 countries throughout the world take Cambridge Assessment International Education (CAIE) AS and A levels every year. They incorporate the best qualities of UK A levels, while meeting the needs of international students.

You will be supported through the academic transition to CAIE A levels, and you will be taught essential study skills like planning and time management.

### Programme and pathway options

You have two programme options to choose from:

- a six-term programme starting in September
- a five-term programme starting in January

The same academic content is taught on both programmes; however, the pace of the six-term programme is slightly gentler than that of the five-term programme. Students on the six-term programme have more time to settle into 'Newton life' and will also receive additional support and extracurricular enhancement activities during their first year of study, with an emphasis on study and laboratory skills.

### A level programme structure

You will choose four subjects in your first year of study. Most students will continue with all four subjects for their final three terms.

If both you and your Personal Tutor feel it is more appropriate, you may be allowed to continue with just three subjects for the final three terms.

Achieved grades:

**A\* A\* A\* A**

“I found the syllabus here very interesting, with a lot of interactive elements. I wanted to focus on Medicine, but had the opportunity to learn more than just human biology, like plant biology, and go into nature to experiment.”

Harold, Hong Kong

 Progressed to Medicine at the Royal College of Surgeons in Ireland

## A range of subject pathways

You can choose from several subject pathways. Use the table below to select the pathway that corresponds to the undergraduate degree you plan to study at university.

### Recommended A level combinations and additional subjects for each pathway

Pathway	Compulsory A level subjects			Optional subject(s)	
Science and Medicine	Mathematics	Chemistry	Biology	Physics	Psychology
Engineering and Mathematics	Mathematics	Further Mathematics	Physics	Chemistry	Economics
Economics, Business and Actuarial Science	Mathematics	Economics		Further Mathematics	Physics

## Your sample weekly timetable

The table below provides an example of what your weekly timetable may look like on the Science and Medicine pathway.

Please note: this is only a sample timetable. You will be given your real timetable during the orientation week at the start of your programme.

### Sample six-term Science and Medicine timetable

	Monday	Tuesday	Wednesday	Thursday	Friday
08:30					
09:00	Chemistry		Mathematics		
09:30					
10:00					
10:30					Chemistry
11:00		Physics/Psychology		Biology	
11:30					
12:00			Optional subject workshop		Biology
12:30					
13:00					
13:30					
14:00	Mathematics	IELTS preparation class	Chemistry	Mathematics	
14:30					Physics/Psychology
15:00				Physics/Psychology	
15:30	Optional subject workshop		Medical ethics	Optional subject workshop	
16:00		Biology			
16:30					
17:00				Introductory 6 week sports programme	Optional subject workshop
17:30					
18:00					

## Subject descriptions

Here is a summary of each A level subject. In addition to your subjects, you will also receive support with study skills and the English language.

### Biology

The CAIE Biology syllabus covers: cell structure; biological molecules; enzymes; cell membranes and transport; cell and nuclear division; genetic control; transport; gas exchange; infectious disease; immunity; ecology; energy and respiration; photosynthesis; regulation and control; inherited change; selection and evolution; biodiversity and conservation; gene technology; biotechnology; crop plants; and aspects of human reproduction.

### Chemistry

The CAIE Chemistry syllabus covers: atoms, molecules and stoichiometry; atomic structure; chemical bonding; states of matter; chemical energetics; electrochemistry; equilibria; reaction kinetics, inorganic chemistry; organic chemistry; and applications of chemistry.

### Economics

The CAIE Economics syllabus covers: basic economic ideas; the price system and the theory of the firm; government intervention in the price system; theory and measurement in the macroeconomy; macroeconomic problems; macroeconomic policies; and international trade.

### Mathematics

All students study Mathematics to AS level and most will continue to the full A level. Students will study Pure Mathematics and either Mechanics or Probability and Statistics.

### Further Mathematics

This subject is only available to students who will study Mathematics to the full A level. Further Mathematics is divided into two papers: Pure Mathematics; and Mechanics and Statistics.

### Physics

The CAIE Physics syllabus covers: general physics (physical quantities and units, measurement techniques); Newtonian mechanics; matter; oscillations and waves; electricity and magnetism; modern physics (charged particles, quantum physics, nuclear physics); and gathering and communicating information (direct sensing and remote sensing).

### Psychology

The CAIE Psychology AS level syllabus covers: cognitive, social, developmental and physiological psychology; and psychology of individual differences. At A level, students will study how psychology is applied in two of the following areas: education; health; the environment; abnormality; and organisations.

14 students  
maximum class size

## Become exceptional

The Newton Programme offers you a direct route to a university of your choice. It has been designed to address all aspects of university preparation and to support you in becoming exceptional. This is your chance to join other gifted and ambitious students who, like you, are focused on the highest level of success.

### Cambridge Assessment International Education (CAIE) A levels

CAIE A levels are welcomed by the world's leading universities, including Oxford, Cambridge, LSE, Imperial and UK and Irish medical schools. These universities recognise CAIE A levels as the highest quality preparation for entry to their courses. Many high-ranking universities in the US also welcome A level candidates and award credit units for high grades.

### Encouraging independent learning

Regular homework is compulsory, and you will be expected to spend a similar amount of time each week in private study as you do in the classroom.

### Exam preparation

Working through past papers will build your confidence as you develop your exam technique. Your teachers will help you understand the style of CAIE exam questions and you will have extensive practice in answering questions under timed conditions.

### Feedback on your progress

We value the trust your parents place in us to look after you, and our A level provision is structured to do just that. You will be allocated a carefully matched Personal Tutor who will be the main point of contact for you and your parents. Along with your teachers, they will be on-hand to:

- discuss your academic progress
- offer guidance on study skills and producing high-quality work
- help with any welfare issues

You and your parents will receive regular reports throughout your time here. These reports cover your academic performance and work ethic.

### Enhance your study skills

You will take part in a study skills programme to help you develop effective study techniques, including organisational skills, planning and time management. These skills can determine the difference between 'good' and 'excellent' grades.

### English language support

Any student requiring a high-level IELTS for degree study will be supported in improving their spoken English and academic writing. INTO UEA is a certified IELTS test centre, so the test can be taken on-site. Students will join a tutorial group which meets once a week and focuses on developing your interpersonal, communication and study skills.

### Your application to university

You will receive comprehensive training on how to complete your UCAS application for a UK university. With guidance, support and advice from your Personal Tutor and Programme Manager, you can feel confident in a strong university application and prepared for interviews as required. We also support applications to international universities.

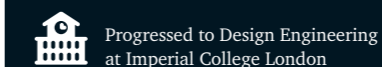

See page 12 for more information on how we support you with your application to university.

Achieved grades:  
**A\*A\*A\*A**

"The Newton Programme helped me to become more independent. You have to push yourself forward, set your own goals and targets, plan your own workload out and stay on track."

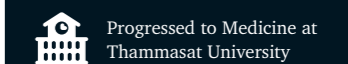

Brandon, Malaysia

Progressed to Design Engineering at Imperial College London

"I'm really happy, excited and grateful to have received an award for my Mathematics AS level result. The Newton Programme really helped me grow a lot both as a person and academically."

Bright, Thailand

Progressed to Medicine at Thammasat University

Achieved the highest grade in the world in her CAIE AS Mathematics exam:

**100%**

(October/November series 2018)

# Activities to inspire your learning

You will take part in a range of exciting academic enrichment activities throughout your programme. This will reinforce your theoretical knowledge, develop your awareness of topics outside of the A level syllabus, and maximise your chances of accessing the most competitive of degree courses.

## Presentations from university academics

We love to invite UEA academics to our learning spaces to share their research and enhance your learning. You'll experience university-style lectures and workshops under the supervision of university academics, sometimes in UEA's laboratories. Previous sessions have covered:

- cancer research
- the Human Genome Project
- electrochemistry

## Real-world experience

Where possible, you'll be supported in identifying and securing internships, voluntary placements and work placements. These may be in the UK or abroad, and there are also opportunities with charities. Former students have worked with:

- engineering companies
- hospitals
- veterinary practices
- science research laboratories
- dental practices

## Educational trips

To help with your understanding and put your learning into a real-world context, you will visit a range of places of scientific importance, such as:

- John Innes Centre in Norwich
- Codebreakers Museum at Bletchley Park
- Sanger Centre in Cambridge

## Take part in competitions

Make the most of the knowledge you will gain by entering competitions, such as the UK Physics, Chemistry and Biology Olympiads and the UK Mathematics Challenge. Here, you can compete against other UK and international students, gaining confidence and study skills in the process.

## Mathematics enhancement

If you hope to study mathematics, engineering, economics or a related subject, we will help you to develop your mathematical and problem solving skills through weekly maths enhancement classes. During these sessions, you will focus on the skills needed to prepare for your Sixth Term Examination Paper (STEP) and an interview in this field.

## Impress top universities with a Project Qualification

We offer the chance to work independently on a project of your choice. Guided by a project tutor, you will make full use of the University's research facilities and expertise. This recognised qualification can give you a real advantage when applying to top universities and performing at selection interviews, demonstrating your desire to extend your knowledge beyond the curriculum and develop valuable research skills.

## Engineering and business enhancement

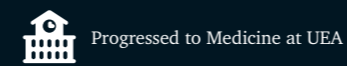

Where possible, students with an interest in engineering, business and non-medical science will work towards a CREST Award. This well-respected and recognised national award requires excellent project management, teamwork and communication skills in order to complete a research project.

Find out more about the CREST Award: [www.crestawards.org/about-crest-awards](http://www.crestawards.org/about-crest-awards)

"I was given the opportunity to do work experience in the Norfolk and Norwich Hospital. It really helped my personal statement and gave me an insight into what life in a medical profession is like."

Dee Dee, Thailand

Achieved grades:

**A\* A A B**

## Preparation for aspiring medics

To support students interested in studying Medicine, senior academics from Norwich Medical School deliver presentations offering valuable insights into the world of medicine and health. Topics covered include:

- medical school applications
- introduction to clinical skills
- how to succeed at medical school interviews
- making the most of medical work experience

You will also have weekly Medical Ethics classes and receive advice on applying to a UK medical school and careers in medicine and health.

## Medical work experience

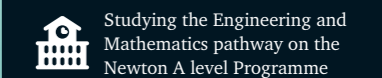

We arrange medical work placements wherever possible\*, at places such as the Norfolk and Norwich University Hospital. Here, you may observe high-ranking consultants at work in departments such as Anaesthetics, Endoscopy, Gastroenterology, Orthopaedics, Plastic Surgery, Radiology, Rheumatology and Urology.

\* Subject to satisfactory performance in class and at selective interview

"I enjoyed the opportunity to get out of class and have exposure to other learning environments, including Bletchley Park and the Imperial War Museum Duxford. IWM Duxford is home to nearly 200 aircrafts – studying these gave me some great ideas ahead of my work on the CREST Award!"

J, Singapore

# Prepare for a top university

We know how important it is that you go on to study at a leading university that is right for you. You will benefit from individual support throughout your A level studies to help you with your applications to top UK universities.

## Applying to university

You will receive practical advice on applying to top universities, including Oxford, Cambridge and Imperial College London. Your Personal Tutor will guide you through the process of:

- writing your university application
- writing your personal statement
- applying through UCAS
- preparing for interviews

You will also have opportunities to visit UK universities and discuss your applications with academics and admissions staff, so you can be certain to make the right choice for you.

## Applying to medical school

To support your application to a medical-related programme, you'll take part in a unique schedule of enhancement activities:

- role-playing and problem-based learning in weekly Medical Ethics workshops
- advice and support from a dedicated Medical Ethics teacher
- hospital placement at the Norfolk and Norwich University Hospital (subject to satisfactory performance in class and at selective interview)
- interview preparation sessions led by medical school academics
- presentations from senior medical academics, providing valuable insights into the world of medicine
- advice from current medical school students
- volunteering opportunities to gain experience in working with the British public

## Test preparation

You may have to take additional tests as part of your university admissions process. You will be fully supported in taking these tests with tutorials and practice sessions, ensuring that you achieve your best. Common tests include:

- **University Clinical Aptitude Test (UCAT)** – taken by students applying to certain medical or dental schools
- **Biomedical Admissions Test (BMAT)** – required for students applying to certain medical, dental or veterinary science schools
- **Sixth Term Examination Paper (STEP)** – commonly taken by students applying for mathematics courses
- **Law National Admissions Test (LNAT)** – commonly taken by students applying for law courses
- **Physics Aptitude Test (PAT)** – commonly taken by students applying for physics and engineering courses

# Meet your teachers

The teachers on the Newton Programme have a wealth of academic and industry experience in a range of subject areas. Find out about some of our teachers below.

**Jodi Kent**  
Newton A level  
Programme Manager

- Graduated with First Class MSci Chemistry from the University of Nottingham.
- Eight years' experience as a qualified accountant at PwC.
- Over nine years of high school teaching and tutoring experience, supporting students in university applications.

**Witold Rozak**  
Physics Module  
Leader

- Graduated with MSc Physics, specialising in teaching physics, from the University of Rzeszow, Poland.
- Taught A level Physics in technical and comprehensive high schools in Poland.
- A level Physics examiner.

**Dr Maya Elliott**  
Economics Module  
Leader

- Graduated with a PhD in Experimental Economics from UEA.
- Teaching experience at undergraduate level.
- A level Economics examiner for several exam boards.

“The Newton Programme creates a unique learning environment where the small classes and dedicated teachers combine to ensure each student achieves their potential. Having worked on the programme since its inception, I am extremely proud of all we have achieved.”

Dr Maya Elliott

“We are proud of our high rate of progression to study Medicine in the UK. Excellent links to the UEA Medical School and the University Hospital have facilitated this. My role is to support potential medical applicants who attend preparation classes, helping them to gain the skills and experience necessary to achieve well in their UCAT and BMAT tests and at interview.”

Carol Ferris, Module Leader for Medical Ethics

**92%**  
of students  
recommended  
for medical  
school in 2018  
successfully  
gained a place

**Rob Gillespie**  
Chemistry Module  
Leader

- Graduated with BSc (Hons) Chemistry and a Postgraduate Certificate in Education (PGCE) from UEA.
- Taught Science and A level Chemistry for over 20 years.
- Extensive experience as a Chemistry tutor for training new PGCE teachers at UEA.
- A level Chemistry examiner.

“We aim for a learning culture that is truly collaborative and based on mutual respect, where questioning is encouraged and teachers work with students and students work with each other to achieve excellent outcomes.”

Rob Gillespie

**Chris Wilkinson**  
Mathematics Module  
Leader

- Graduated with BSc (Hons) Computer Science and a Postgraduate Certificate in Education from UEA.
- Taught A level Mathematics and Further Mathematics for over 20 years.
- Mentored trainee teachers on UEA's PGCE programme.
- A level Maths examiner.

**Beverley Lewis**  
Biology Module  
Leader

- Graduated with BSc (Hons) Biology from the University of Bristol.
- Extensive experience as a biologist and conservationist.
- Published author of several books.
- Taught Biology for over 10 years.

# Giving you the right support

We understand that choosing to study at INTO UEA will take you on a life-changing journey, so we offer you an extensive support network. We take pride in the support we offer through the wealth of experienced teaching staff, personal tutoring system, regular contact with parents and dedicated Under 18 Welfare team.

## Before you arrive in the UK

Once your offer has been accepted, you will receive a pre-departure guide containing practical information to help you prepare for:

- travelling to the UK
- your arrival in Norwich
- programme enrolment

You will also receive a pre-arrival reading list so that you can prepare for your A levels.

## Meeting you at the airport

We provide an airport pickup service from Norwich International Airport and major London airports (required for all students under the age of 18) at an additional charge, so you won't have to worry about how to get to campus.

## Your Student Services team

When you first arrive, the Student Services team will help you settle in to student life in Norwich and will be there to help with any non-academic issues. We're dedicated to ensuring that you feel totally safe and supported with:

- a comprehensive induction during your first week, including a guided tour of the city
- 24/7, 365 days a year student support
- multilingual staff in the INTO Centre
- trained welfare staff and residential wardens
- workshops and individual appointments to help with visa and immigration queries
- support for students with disabilities
- a social programme to help you make friends

## Student attendance monitoring

Good attendance is key to academic success, so you're expected to attend all academic sessions. Your attendance is monitored carefully and where it's not satisfactory, we have an absence procedure.

## Support from the University

As well as the normal system of study advisers and tutors, the University offers additional support services. These include:

- extensive chaplaincy services
- the University Medical Centre
- CareerCentral careers advice service
- UEA Student Support Services

## Students under the age of 18

Studying overseas is a big step for anyone, but even more so for younger students. If you are under the age of 18, we will check in on you each day at your student residence.

We also ensure that all of our staff complete safeguarding training to support the welfare of students under the age of 18.

For more information on our policies, visit [www.intostudy.com/uea/terms](http://www.intostudy.com/uea/terms) or request a copy of our Under 18 Policy.

“The teachers here are very supportive. We work co-operatively and it's more of a discussion. When I don't understand things, I can raise my hand and ask questions.”

Bill, Thailand

Achieved grades:

A\*A\*A\*A\*

## Private en suite bedroom

Within the INTO Centre

24/7 staff

Wi-Fi

En suite bathroom

Laundry facilities

Bedrooms cleaned regularly

“The accommodation is wonderful and it's great being so close to where our classes take place. I really enjoy living with students my own age.”

Cherno, The Gambia

2014 Graduated with Medicinal and Biological Chemistry at the University of Nottingham

Now Working as a Financial Professional at AXA

# Your home from home

You will feel at home in no time, living with your new classmates in the INTO Centre on UEA's beautiful campus. If you are under the age of 18, you will live on a corridor with additional entry access security.

## Everything you need

- Spacious single study bedrooms with an en suite shower room.
- Meal plan in our international restaurant.
- Modern communal kitchens.
- A bedding pack, including a single duvet and cover, a pillow and pillowcase, a sheet and a mattress protector.
- Bed linen changed every two weeks.
- Room cleaned regularly.
- 24/7, 365 days a year student support.
- Dedicated A level study room.
- Access to nearby laundry facilities.
- Relaxation areas throughout.
- Access to games and satellite TV.
- Designated wheelchair-accessible rooms situated near lifts and entrances.

## Dine in our on-site restaurant

As a Newton A level student, you will enjoy at least two meals a day in our restaurant.

The restaurant offers a wide choice of different dishes each day, caters to all dietary requirements (including vegetarian) and is fully halal certified. The meals are nutritionally balanced and will help you to stay healthy and alert in class.

In addition to the meal plan, you can purchase further meals in the restaurant and a coffee cart is also available in the INTO Centre.

There are vending machines situated in your accommodation and you will share a kitchen with your classmates to cook meals together.

# Enjoy life in Norwich

In this historic city, you will find a castle and medieval streets alongside award-winning shopping, theatre, arts and entertainment.

### Discover the beautiful city

Norwich city centre is just four kilometres from UEA and frequent buses run from the campus. As there is a large student population, there are many things to do for every budget. You could:

- visit museums and art galleries, one of which is even on the UEA campus!
- eat some good food in one of the many international cafés and restaurants
- watch a movie at the cinema, go bowling with friends or visit the trampoline park
- explore Norwich's historic buildings
- go shopping at the large shopping mall or take a look around Norwich Market – one of the largest open-air markets in Britain.

### Exploring the region

Norfolk is famous for its beautiful countryside and waterways. There are miles of riverside walks, countless cycle paths, beautiful beaches, wildlife sanctuaries, small villages and large stately homes to visit, such as Sandringham House – the country retreat of The Queen.

Every corner of Norfolk has its own character and charm. There's something for everyone, from the stunning theatrical acts of the Norwich and Norfolk Festival, to the extensive ruins of Baconsthorpe Castle and even surfing at the traditional seaside town of Cromer.

### Transport connections

Norwich has a fast and frequent train service to London which takes just under two hours, as well as good links to the rest of the UK.

The bus and train networks provide many opportunities for day trips to the picturesque countryside and coastline of East Anglia.

Norwich International Airport is just 15 minutes from the University campus. With frequent flights to Amsterdam, one of Europe's largest international hubs, you will find travelling to and from your home country very easy.

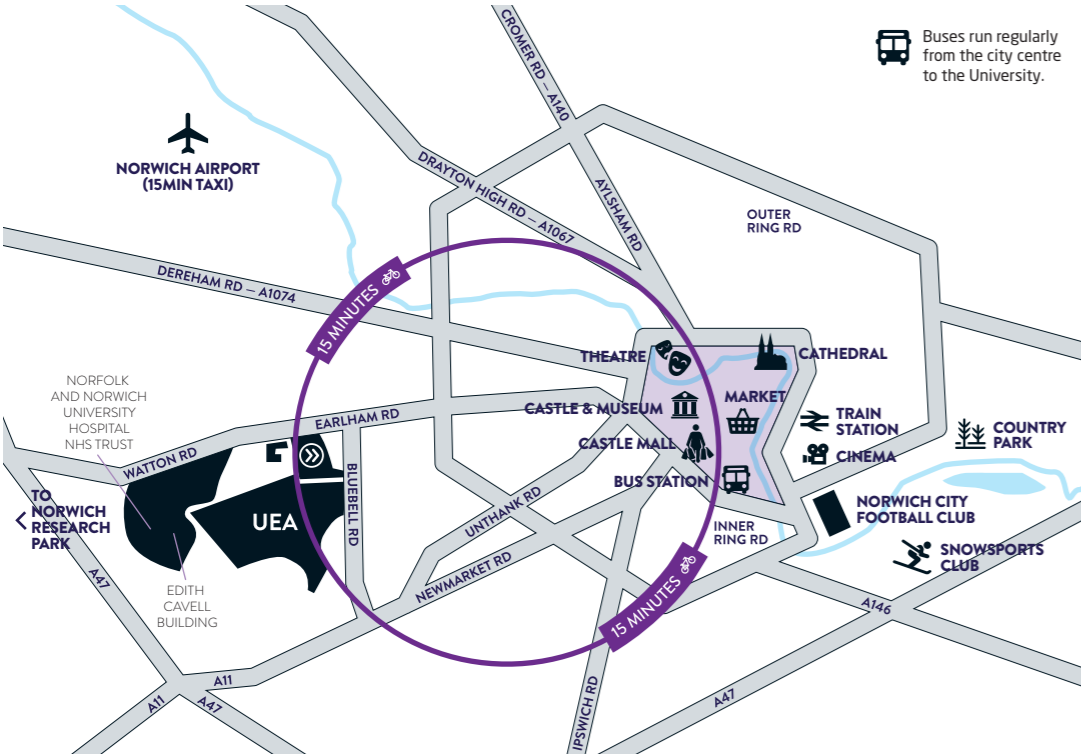

One of the **BEST** places to live in the UK

(The Sunday Times Best Places to Live 2019)

**94%** student satisfaction with the local area

(INTO Annual Student Experience Survey 2019)

Achieved grades:  
**A\*A\*A\*A**

“I like Norwich – it’s quiet. I prefer to study in a quiet, calm and peaceful atmosphere.”

Ikjun, South Korea

Progressed to Biological Sciences at Imperial College London

Take a virtual tour of the campus, city and our accommodation:  
[www.myin.to/UEAVirtualTour](http://www.myin.to/UEAVirtualTour)

# Your guide to campus life

Involvement in non-academic activities will help you adjust to life in the UK, improve your English and make new friends.

## Social programme

Our social programme offers a range of activities for you to get involved in. These may include:

- tour of London
- punting in Cambridge
- trips in the local area, such as Holkham beach
- excursion to Edinburgh
- trips to Harry Potter Studios and theme parks
- quiz nights, film showings and bowling

## Clubs and societies

Joining one of the 200 clubs and societies at the University is a great way to make friends with other students. Clubs and societies include:

- international societies, such as Chinese, Malaysian, Korean, Hong Kong and more
- sports, including basketball, dance, football, tennis, trampolining and volleyball
- music and drama
- debating and model UN
- photography
- film and anime

## Stay active in the Sportspark

UEA has an extensive sports complex on campus. As a Newton student, you will have full access to the Sportspark, including:

- 50-metre Olympic-sized swimming pool
- indoor fitness centre
- badminton, basketball and volleyball courts
- eight-lane athletics track
- five squash courts
- climbing wall with bouldering cave
- martial arts studio and gymnastics centre
- two floodlit artificial-turf hockey pitches
- Soccerpark with seven pitches
- six floodlit tennis courts

## Get involved

With our 6-week introductory sports programme, you will have taster sessions for a range of sports as you get to know your peers. You can also join classes for all levels of fitness in many activities, including tennis, archery, trampolining, gymnastics and swimming, or have your fitness programme designed by a sports scientist.

**Top 15**  
in the UK for clubs and societies

(Times Higher Education Student Experience Survey 2018)

# Study A levels at a leading UK university

No matter what subjects you choose to study at A level, you will be taught by leading professionals informed by the latest research. As a Newton student, you will benefit from premium university facilities and talks from professors at the forefront of their fields.

## Your INTO UEA experience

UEA is globally recognised as a high performing, research intensive university that excels in its teaching. INTO UEA received the highest grade possible in the last Independent Schools Inspectorate inspection (November 2017), so you know you will receive a high-quality education in a safe environment here. You'll have access to all of the facilities the University provides, including:

- 24/7 library
- Sportspark
- Sainsbury Centre for Visual Arts

## Norwich Research Park

UEA is part of the Norwich Research Park – one of Europe's largest collaborative research sites that is the most cited outside of Cambridge, Oxford and London. Focusing on health, food, development and the environment, UEA believes that anything is possible when creative people get together.

The University has recently developed some ground-breaking research projects to try to solve complex global problems, including:

- searching in unusual places for new antibiotics (such as fungus-growing ants!)
- undersea robots that silently monitor our climate and reveal the ocean's secrets
- a mobile phone game that can detect people at risk of Alzheimer's disease

## INTO Centre

Located on UEA's campus, the INTO Centre provides a safe environment where you will live, study and relax in a truly international community. The INTO Centre's facilities are spread over five floors in a university-style environment and includes:

- modern, interactive classrooms
- a lecture theatre for lecture-style classes
- three science laboratories equipped with the same equipment that the University uses
- breakout areas for socialising or group work
- an international INTO Café and Restaurant
- your accommodation in the same building as your classes (see page 15 for more information about where you will live).

## Become an independent learner

As well as having access to the University's library, information technology and computing services, the Centre has its very own Learning Resource Centre (LRC). It has a collection of books and journals relevant to your studies and an area with computers available for training from friendly staff or independent study.

## UEA degree programmes

With a high-ranking UK league table position, UEA continuously measures its teaching standards to produce the next generation of problem-solvers.

There are more than 300 top-quality degree programmes on offer in a range of subject areas, many of which are ranked in the UK top 20:

- 12th in the UK for Business Studies (The Times and The Sunday Times Good University Guide 2019)
- Top 20 in the UK for Accounting and Finance (The Times and The Sunday Times Good University Guide 2019)
- Top 20 in the UK for Economics (The Times and The Sunday Times Good University Guide 2019)
- Top 20 in the UK for Medicine (The Times and The Sunday Times Good University Guide 2019)
- 39th in the world for Life Sciences (QS World University Rankings 2019)
- 55th in the world for Law (Times Higher Education World University Rankings 2019)

For full details of the undergraduate degree programmes available at UEA, please visit:

[www.uea.ac.uk/courses/undergraduate](http://www.uea.ac.uk/courses/undergraduate)

UEA has a number of generous scholarships on offer for Newton students choosing to study at UEA. More information about these scholarships will be provided when you join the programme.

“My favourite part was making friends from different cultures. I was able to go to campus clubs and meet new people.”

Vanessa, Hong Kong

Progressed to Medicine at the University of Hong Kong

Achieved grades:

**A\* A\* A\* A\***

UEA is ranked:

**Top 15**  
in the UK

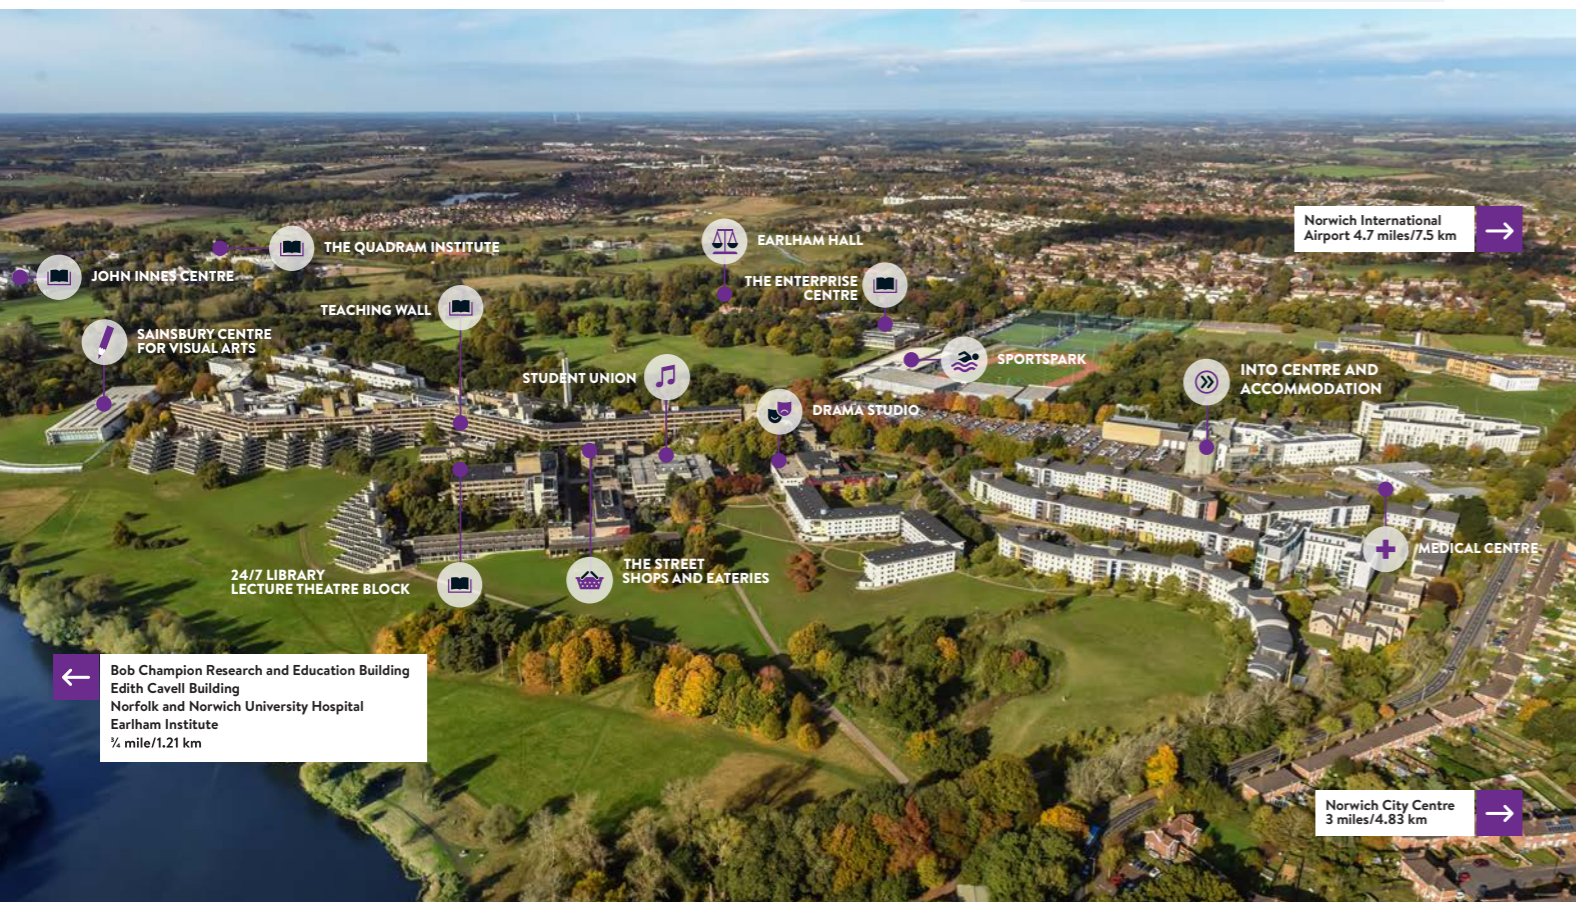

(The Times and The Sunday Times Good University Guide 2019)

UEA has been awarded:

**TEF Gold**

for teaching quality

(Teaching Excellence Framework 2017–20)

# Dates and prices

The cost of your programme may vary depending on factors including the pathway chosen and programme length. The following guide to costs is based on pricing for the current academic year and provides an indication of the cost of attendance. For specific cost information, please refer online: [www.intostudy.com/newton/courses](http://www.intostudy.com/newton/courses)

## Estimated two-year cost of attendance based on prices for current students enrolled from 2019-2021
