VIRTUAL CAMPUS TOUR

Take a campus tour from home with WSU's Virtual Tour at www.youvisit.com/wsu

ABOUT WASHINGTON STATE UNIVERSITY

Since 1890, WSU has inspired the next generation of problem solvers with high-ranking academic programs, life-changing research and nationally recognized professors.

Globally Recognized Programs and Faculty

WSU's programs are ranked among the best nationally and internationally in the fields of engineering, computer science, hospitality, business and many more. WSU students learn from faculty and researchers who are leaders in their field. Eight WSU faculty are recognized as National Academy members—one of the highest honors given to faculty at US higher education institutions.

Learn by Doing

WSU places a strong emphasis on hands-on learning and encourages students to apply their knowledge in the real world. Students can launch their own businesses through the Center for Entrepreneurial Studies; learn to use tools like 3D printers and plasma cutters in the Frank Innovation Zone; or create their own television shows at WSU's Cable 8 Productions. Students in every major have opportunities to gain practical experience which can eventually lead to Optional Practical Training (OPT) employment at competitive US companies.

Research Driven

As a Tier 1 research institution, WSU is known as one of the nation's top research universities. You will be a part of a community researching grand challenges in society such as creating smart systems, sustaining health, establishing social equality and developing sustainable resources.

POWERFUL ALUMNI NETWORK

A worldwide network of passionate alumni supports your achievement from classroom to career. With over 200,000 graduates in 146 countries, you can find other Cougars around the globe to help launch your career. Successful WSU alumni and former students include:

- Paul Allen, Co-Founder of Microsoft
- Ana Cabrera, Journalist and Anchor on CNN
- Scott Carson, Former President and CEO of Boeing Commercial Airplanes
- Edward R. Murrow, US journalism and broadcasting legend
- Klay Thompson, NBA player with the Golden State Warriors

THE INTO WSU ADVANTAGE

Washington State University partners with INTO to create a support system for international students. We offer Academic English, International Year One, Graduate Pathway and Direct Entry programs where you will work alongside your American peers and earn credit towards your degree while improving your English skills. After successful completion of your Pathway program you will be able to progress to a WSU degree program.

INTO WSU provides services such as:

- Personalized academic, language and cultural support
- Airport pickup and arrival support
- Guidance with financial, visa and sponsorship issues
- Student health insurance

INTO WSU SUCCESS

100% of all Pathway students were eligible to progress at WSU in 2017-18. Eligible students are those who successfully completed the Pathway program and qualified for admission as degree-seeking students. Enrolled students are those who enrolled as degree-seeking students in their next term of degree study at Washington State University.

Undergraduate and Graduate Progression Rate 2017-2018

100% ELIGIBLE STUDENTS

95.1% OF ELIGIBLE STUDENTS ENROLLED

"Students are the most important thing at WSU. From the simplest to the largest necessities—food, housing, school supplies and entertainment—everything is equipped to serve the student."

Salwa, Oman

BSc in Finance and Political Science

DISCOVER OUR CAMPUSES

You can choose to study at one of five campus locations in the Washington State University system: Pullman, Vancouver, Tri-Cities, Spokane and Everett. WSU's five campuses offer different learning opportunities across the state, but all have identical education quality, faculty standards and diplomas at graduation.

Pullman: An All-American College Town

Pullman is home to WSU's first and largest campus and offers the widest range of degree programs and research directions. With beautiful scenery, clean air and 172 days of sunshine annually, Pullman gives you a relaxed setting with the charm of a traditional, American college town. Here, students can use the resources of a major university to customize their education and prepare for internship and work opportunities.

There is plenty for students to do for fun in Pullman. The local area has shopping malls, movie theaters, KTV, restaurants and a lot of outdoor activities for recreation. WSU students also enjoy several perks in Pullman, including discounts from local merchants and free access to Pullman's extensive public transit system.

WSU Pullman On-Campus Activities

WSU is the social center of Pullman, and there are always on-campus activities for students to participate in. Home games for Cougar athletic teams are campus-wide events and WSU welcomes many visiting performers, musicians, comedians and scholars to entertain and educate students. The university has three gymnasiums and recreation centers with facilities for swimming, team sports, rock climbing and more, as well as the Outdoor Recreation Center for students interested in activities like hiking or rafting. WSU has more than 400 student clubs on campus, including:

- 73 international and cultural clubs
- Industry related clubs, including over 30 engineering clubs
- 6,000+ students competing in intramural sports

THE RIGHT CAMPUS FOR YOU

Whether you like cities, college towns or countryside, WSU has a campus for you. WSU is proud to offer unique academic opportunities and student experiences at each campus. After completing their International Year One or Pathway program in Pullman, many students will have the option to finish their degree in Pullman or pursue studying on another WSU Campus.

WSU Vancouver

WSU Vancouver's campus combines a small college feel with the resources of an internationally-respected research university. Located just minutes from Portland, Oregon, WSU Vancouver offers programs in business, engineering, hospitality and other in-demand disciplines. WSU is the only Tier-1 research university in the Portland metro area, and offers progression options to thesis programs for select INTO WSU Graduate Pathway programs.

WSU Tri-Cities

WSU Tri-Cities emphasizes the "learning-while-doing" approach to educating students, focusing primarily on STEM disciplines (science, technology, engineering and math) and on developing industry partnerships for research and internship opportunities. WSU Tri-Cities partners with the Pacific Northwest National Laboratory (PNNL) on many projects, including PNNL research facilities on the Tri-Cities campus and faculty that hold joint research appointments with both organizations.

WSU Spokane

Located near the medical district of Washington's second-largest city, WSU Spokane offers degree programs that focus on health science and medical education.

WSU Everett

WSU Everett offers bachelor's degree completion programs in the Seattle metro area. These programs focus on fields that are in high demand in the region, such as electrical engineering, hospitality, software engineering and data analytics.

WSU VANCOUVER

WSU TRI-CITIES

WSU SPOKANE

WSU EVERETT

WASHINGTON IS RANKED #1 state in the country for its citizens in *U.S. News & World Report 2019 BEST STATES*

"People really care here. WSU is the first place I've been where everyone really works hard in order for you to succeed. Everyone is so friendly and enjoys having one-on-one time with you. People are ready to open doors for you to pursue opportunities."

Marissa, Nigeria
Zoology/Pre-Medicine

GRADUATE ENGINEERING PATHWAY PROGRESSION OPTIONS

While all INTO WSU pathway programs are offered at the Pullman campus, some of our graduate engineering programs give students the chance to complete their degree on any of our five campus locations. Each campus has specialty courses, programs, facilities and more you won't find anywhere else. You can choose to apply to the Graduate Pathway program and the campus you will complete the rest of your degree program at, based on what best suits your interests and goals.

WSU Vancouver

Offers thesis programs for graduate electrical engineering and mechanical engineering graduate pathway students. These programs are available to students in 1-Semester Pathway programs with Fall semester start dates.

WSU Tri-Cities

Offers progression for graduate non-thesis electrical engineering and mechanical engineering programs. Students in these programs can take advantage of the Tri-Cities' location next to major manufacturers and research centers, including the Pacific Northwest National Laboratory (PNNL).

FOR MORE DETAILS, contact your education counselor or INTO WSU

82%
of new freshman live in university housing

27
on-campus residence halls and apartment complexes

HOUSING AND DINING

Who Lives in WSU Housing?

All first-year undergraduate students under the age of 20 are required to live in university housing for 2 semesters. This includes all undergraduate programs: Undergraduate Direct, International Year One or Academic English that leads to a Year 1 undergraduate program.

Undergraduate transfer students are not required to live in university housing. Year 1 undergraduate students age 20 or over are not required to live in university housing.

All enrolled WSU students may request to live in university housing regardless of program. Please visit <https://housing.wsu.edu/housing-essentials/contracts-and-policies> for complete housing policies.

Meal Plans

The WSU Freshman Live-In Requirement (FLIR) requires all freshman students under the age of 20 to live in university housing for 2 semesters. Students that are subject to FLIR receive a meal plan as part of their housing package. Students not subject to FLIR, including graduate students and transfer students, can purchase a resident dining account separately if desired.

Double Room - Sample Layout

PRACTICE MAKES PERFECT

REAL-WORLD EXPERIENCE FOR UNDERGRADUATES

WSU's fieldwork, in-depth labs, research and internships inspire you to explore topics with passion and purpose. Take a look at just a few ways we prepare you for your first job outside of college.

Boeing Scholars Program

wsu.edu/125/boeing-partnership

WHO: Students in their last two years of study in business, engineering or communication majors.

WHAT: Two-year scholarship and internship opportunities.

WHEN: All students in this program receive paid Boeing internships in the summer after their junior year. During their senior year, students from engineering, communication and business programs participate in an interdisciplinary course, collaborating with Boeing scientists and engineers on an aerospace industry project.

WHY: Showcase your project in formal presentation to Boeing management. Earn up to \$4,000 in scholarship funds over two years.

Harold Frank Engineering Entrepreneurship Institute

www.vcea.wsu.edu/entrepreneurship

WHO: Junior and senior engineering, communications and business students who want to pursue technological entrepreneurship.

WHAT: A scholarship, internship and innovation program where students experience how innovation moves from idea to sustainable realization.

WHEN: A three-semester program throughout the year that includes a 12-week internship starting in the Summer session, including a three-week summer program in the Silicon Valley for meetings and mentorship.

WHERE: Off campus in the Summer session, on campus in Fall and Spring semesters.

WHY: Students learn to design products and seek investors for their ideas. Receive a 12-week internship and \$2,500 in scholarship funds.

Murrow Global Expeditions

[Murrow.wsu.edu/student-work/global-learning/murrow-global-expeditions](https://murrow.wsu.edu/student-work/global-learning/murrow-global-expeditions)

WHO: Journalism or media students with a passion for telling stories from around the world.

WHAT: Through these faculty-led summer programs, you will get a crash course into how people from other parts of world have developed their narrative craft with local organizations.

WHEN: Summer sessions.

WHERE: The 2019 trips include studying culture and storytelling in Greece and covering sports and media in France. Best of all, you'll earn credits toward graduation.

WHY: Gain practical communication experience in a global context. You can pen the next great story while immersed in two incredible international locations.

Carson College Business Plan Competition

entrepreneurship.wsu.edu/pursue/wsuc-bpc

WHO: All students who are interested in starting their own business.

WHAT: The business plan competition will help you sharpen your skills as a leader, come up with new ideas and how to execute them. If you make it to the final round, you and your team will get to network with investors and industry professionals by presenting your business plan at the competition as well as over dinner with the judges.

WHEN: Spring semester.

WHERE: On WSU's Pullman campus.

WHY: Students compete for prize money that can be put toward education expenses or their own future plans. First prize is \$15,000, with more that \$50,000 awarded annually.

PROFESSIONAL MENTORING

Our professional mentoring options are great companions to the research you conduct in other areas of your program. Get the advice you need to succeed in the workforce from the people who know best: your professors and local industry leaders.

Boeing Mentorship Program

- Pair with a mentor from Boeing who will teach you the ins and outs of the aerospace industry, opportunities at Boeing and general career guidance.
- Mentors (mostly WSU alumni) regularly communicate with students via email and visit with students on campus at least once during the program.
- Boeing employees have mentored 100+ students in engineering, business and communication majors.

Society of Women Engineers Mentoring

- With the underrepresentation of women in engineering, WSU works with the Society of Women Engineers to help foster the next generation of female engineering professionals.
- Currently employed female engineers are matched with students to answer any questions, keep you in the loop with networking activities, job shadowing, touring nearby facilities and more.

Murrow Mentors for Communication

- Experienced Edward R. Murrow College of Communication alumni coach high-achieving juniors and seniors who have the dedication, determination and grit to excel in the wide-spanning world of media from the 24-hour news cycle to producing the next *New York Times* bestseller.
- Available for Murrow College of Communication students in their last two years of study (juniors and seniors).

Carson College Mentors for Business

- With the changing tides of technology, financial regulations and global competitors, it's more important than ever to graduate with the business savvy that can adapt to today's ever-evolving market.
- Professional mentors guide you on how to think from every angle to make the well-rounded business decisions
- Available for Carson College of Business students.

INNOVATIVE RESEARCH

Since 2008, WSU's research awards have increased by 18%, placing WSU among the nation's top research universities. WSU is also recognized as a product development and business leader. In the past decade, WSU students and faculty have filed over 500 patents and developed commercial relationships that have generated over \$10 million in revenue.

Research Beyond Engineering and Science

At WSU, hands-on learning and research opportunities exist in almost every program, from business and economics to communications and psychology. Examples of WSU's research impact include:

- #1 for Research in Advertising *CornVista*
- Top 100 Worldwide for Output in Business Research *UTD Business Research Rankings 2018*
- 25 psychology research labs and three business research centers
- Computer science research in high-performance computing, networking and artificial intelligence

Discover why WSU is the best place to start your career.

Positioned in a thriving business and tech hub, with supportive career resources, exceptional academics and an outstanding alumni network, WSU students are preparing to succeed from their first day on campus.

LAUNCH YOUR CAREER

Dedicated Career Support

We are dedicated to your success both in the classroom and in your career after graduation. Our Academic Success and Career Center offers multiple free services to help you develop your career including:

- Internship placement assistance
- CV and cover letter review
- Career coaching and assessments
- Campus-wide career fairs, program-specific job fairs and industry networking events

Industry Partnerships in the Classroom

WSU's proximity to leading tech and manufacturing destinations like Seattle, Portland and the Tri-Cities allows students to network with industry professionals.

- WSU has partnered with major businesses like Microsoft, Boeing, BP, Deloitte, Amazon, Intel and Merrill Lynch to develop new curriculum, mentor students and conduct large-scale research projects.
- Industry professionals are often guest speakers at campus events and the curriculum is centered around industry needs, such as business classes designed to simulate enterprise environments or computer science classes tackling the latest trends in AI and data analytics.

Internship and Job Placement Support

Our dedicated career services staff help students find valuable internships and jobs in government, business, industry and nonprofit sectors both as students and after graduation.

- Many WSU degrees offer guaranteed internships and practical experiences; the hospitality business management program, for example, guarantees at least 1,000 hours of paid work experience before graduation.
- Students in fields like fashion design or international business have internships and global study built directly into the curriculum.
- With assistance from the Academic Success and Career Center on CVs and interviewing, WSU international students have strong job prospects at graduation.

Edward R. Murrow College of Communication

WSU's Edward R. Murrow College of Communication prepares students for careers in media, journalism and film and television production, as well as for jobs in areas such as advertising, public relations and strategic communications.

- You can get practical experience on campus in WSU's own television, radio and newspaper programs
- Murrow Global Expeditions allows you to create your own content around the world.
- Named after Edward R. Murrow, a WSU graduate and one of the most famous journalists in US history.

For additional information, visit www.murrow.wsu.edu

A Leader in Power Engineering

- The electric power program at WSU is considered among the best in the world in power systems research and power engineering education.
- WSU's Energy Systems Innovation Center is at the forefront of global research, education, and technology innovation and transfer for energy systems, including smart grids. The university leads the nation's efforts in power grid reliability and efficiency through partnerships with US Department of Energy and companies like General Electric, the sponsor of WSU's GE Smart City Power Grid Test Lab.

For additional information, visit school.eecs.wsu.edu/research/power-engineering

Carson College of Business

- The Carson College of Business stands among the top 5% of business schools worldwide who have achieved full accreditation in both business and accounting from the AACSB, the oldest and most respected international business program accrediting body.
- Ranked No. 15 for Undergraduate International Business by *U.S. News & World Report 2019* and backed by partnerships with multinationals like Microsoft, McKinstry, BP and Boeing, WSU's business college prepares students for success in a global market.

For additional information, visit www.business.wsu.edu

ACADEMIC PROGRAMS

FIND YOUR DEGREE. With a wide range of subject areas and admissions options, you can find the perfect degree for your chosen career. You can choose to apply for direct entry to the university or for a Pathway program that provides extra academic, language and cultural support. From the day you apply to the day you graduate, we are here to help you succeed every step of the way. Flip to the back cover to learn how to apply.

B = Bachelor's **M = Master's** **D = Doctorate**

International Year One

UNDERGRADUATE ADMISSIONS

We take the guesswork out of program selection. No matter what your starting point is, we offer several routes that get you to graduation day. With more than 95 bachelor's degrees, flexible study plans and start dates throughout the year, we will help you find the program that best suits your academic goals and your student profile.

There's no need to stress about where you start; just focus on where you're going. You can complete your degree at any stage. We don't design our programs for one type of student; our programs are built for every kind of student. Where you will begin depends on your grades and English level. Where you end up is where you want to be, graduating with a bachelor's from WSU.

→ **DIRECT ENTRY:** If you meet the academic and English language requirements for your degree program, you can apply directly to WSU.

To apply, you will need the following required documents: declarations, high school transcripts, university transcripts (for transfer applicants), proof of degree, accounting of time, passport and English test score. For more information, visit ip.wsu.edu/future-students

→ **INTERNATIONAL YEAR ONE:** International Year One allows you to begin earning credits toward your degree even if you do not meet the academic and English requirements for direct entry. You will receive additional academic, English language and cultural support to help you successfully complete your first year and in most majors you will graduate in the same amount of time as direct entry students. For more information, visit www.intostudy.com/wsu/programs

→ **ENGLISH LANGUAGE PROGRAM:** If you do not meet the direct or International Year One entry language requirements, you can enter our Academic English program to improve your academic and language skills. Once you have achieved the required language level, you can progress to International Year One or enter your degree program directly. Learn more on page 21.

US UNDERGRADUATE EDUCATION SYSTEM

To graduate with your 4-year undergraduate degree, you will need to take the following classes:

WSU UCORE classes: General education courses can include English composition, social sciences, humanities, history, mathematics and natural/physical science. These are typically taken at the beginning of your study plan.

Major classes: These classes will be about the specific field of study you chose. They are typically taken in the later part of your study plan.

GRADUATE ADMISSIONS

As a graduate student, we know that you have a good idea of what you're looking to get out of your degree program. Either from your undergraduate experience, or years in the workforce, you've learned what you want to gain in the next phase of your student journey. Let us show you how we can take you there. WSU's 11 colleges, 106 master's, doctoral and professional degrees and several paths to admission are designed so that no matter what you come in with, there's a way for you to complete your degree here.

How you start your program depends on your academic profile and your English level. How you finish your program is exactly how you pictured: completing a graduate degree at WSU.

→ **DIRECT ENTRY (TRADITIONAL ADMISSIONS):** If you meet the academic and English language requirements for your degree program, you can apply directly to WSU.

To apply, you will need the following required documents: declarations, university transcripts, proof of degree, English proficiency scores, GRE or GMAT scores if required by the prospective department, three letters of recommendation, and passport.

Graduate degrees are competitive, and an extensive review of your application will be done, please expect a longer turnaround for an admissions decision. For more information, visit ip.wsu.edu/future-students

→ **GRADUATE PATHWAY:** Our Graduate Pathways allow you to begin earning credits toward your degree even if you do not meet the academic and English requirements for direct entry. The program will help build the academic foundation and essential English language skills you need to successfully progress to your master's degree. For more information, visit www.intostudy.com/wsu/programs

→ **ENGLISH LANGUAGE PROGRAM:** If you do not meet the direct or Graduate Pathway program entry language requirements, you can enter our Academic English program to improve your academic and language skills. Once you have achieved the required language level, you can progress to a Graduate Pathway. Learn more on page 21.

"Everything in computer science is new for me... We learn how to program and how to use the Java system. We look at communication networks and discuss our work... I used to be overwhelmed in computer science because I didn't have the background knowledge. But with the support of my friends, I began to understand data analysis."

Gift, Thailand
Graduate Pathway program in Computer Science

"Washington State has a great atmosphere where you can gain knowledge from others and share ideas. Here, you have access to labs, software and lectures from people who work in your desired industry. You spend your time developing projects and learning how to be creative and unique."

Saurabh, India

High school diploma required

No English score is required since students will be assessed and placed upon arrival.

Minimum age 16

7 levels of instruction from true beginner to high advanced

21-24 hours of instruction per week

Progression Requirements

Undergraduate 2-Semester Pathway

Completion of Academic English Level 4 with a minimum 80% in all graded courses

Direct Undergraduate Admission

Completion of Academic English Level 5 with a minimum 80% in all graded courses

Graduate 2-Semester Pathway

Completion of Academic English Level 5 with a minimum 83% in all graded courses

Start Dates for Academic English

Fall 2020	Spring 2021	Summer 2021
Aug 17, 2020	Jan 4, 2021	May 3, 2021

The Academic English program at WSU prepares you for university study in the US. You will receive high-quality English language instruction and the academic skills to succeed at WSU.

What You Will Learn

- Present spoken and written ideas accurately and effectively in English.
- Write research papers with proper use of citations and references.
- Read, understand and critically evaluate academic texts.
- Understand and use vocabulary common to academic disciplines.
- Take useful and accurate notes in academic lectures and presentations.

Estimated Academic English (AE) Level Based on Test Scores

All students take a placement test during Orientation to determine their AE level. The table below shows your estimated level of AE based off your standardized test scores.

AE Levels	TOEFL iBT	IELTS	IELA
Level 1	6	1.0	120
Level 2	16	2.0	130
Level 3	32	3.0	140
Level 4	50	5.0	154
Level 5	60	5.5	162
Level 6	66	6.0	169
Level 7	80	6.5	176
