Schools of Study

With over 300 programmes across eight Schools of Study, there is a course to suit your career goals.

We have state-of-the-art facilities, academic excellence and unique engagement with the worlds of business, commerce and the public sector. Close collaboration with industry means our course content is driven by business requirements, setting students up well for their future ambitions.

Many of our courses also include a placement option, allowing you to build the skills, contacts and experience you need for a rewarding career. There will usually be no tuition fees for your placement year and you will often earn a salary.

(LRC in background)*

Business

We transform students to enable them to play their part in the global economy.

Our collaboration with leading businesses, practical projects and placements, together with our location close to central London, mean you'll have every opportunity to build the skills, contacts and experience you need for a rewarding career.

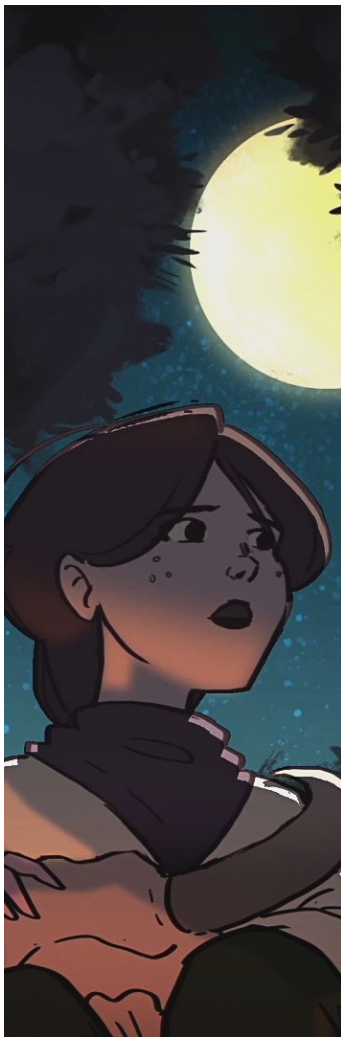

The new Enterprise Hub houses a dedicated business incubation facility, designed to support business start-ups and graduate entrepreneurs to kick start businesses.

Ranked 7th nationally for Tourism, Hospitality and Event Management
(The Guardian, 2020)

Ranked 4th nationally for Economics
(The Guardian, 2020)

Short-listed for Best Business School in the UK
(Times Higher Education Awards, 2020)

Creative Arts

.....

This vibrant school offers an inspiring, supportive environment with the latest technology at your fingertips. A huge range of facilities and purpose-built buildings mean there is hands on equipment for all courses.

The School entrance gallery is the perfect exhibition space to showcase artists work. Specialist rooms have been fitted for jewellery, glass, ceramic, 2D and 3D workshops. 3D printers and digital animation suites allow Architecture and Animation students to bring concepts to life. We also have a dedicated Gerber software suite for Fashion students.

Our equipment loan store and on campus photography, recording and television studios allow students to create their own content for projects using our dark rooms and studio suites.

#1 for Games – TIGA Games Industry Award (2019)

On campus art supply shop

Education

Our innovative courses reflect the social, political and technological changes taking place in the field of education, allowing you to make a positive influence on the lives of the children you teach.

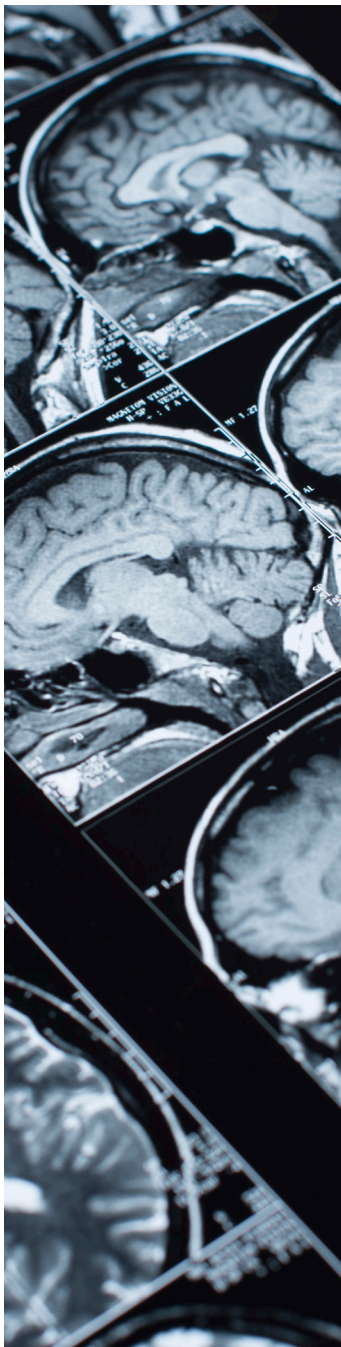

You'll benefit from our expertise which spans curriculum development, educational assessment, early childhood education, STEM education, and higher education teaching.

Our School has strong links to hundreds of

organisations, including nursery, primary and secondary schools, giving you plenty of opportunities to gain practical experience and tackle professional challenges head on.

**Ranked in the top 20
for Education in the UK**
(The Guardian, 2021)

Health & Social Work

.....

A national centre of excellence, we are the largest provider of radiography education and the first in the country to offer paramedic degrees. Our X-ray and ultrasound laboratories allow for practical, hands-on skill development.

We also have the largest Clinical Simulation Centre in the UK with facilities such as a mock ward, intensive care unit, pharmacy, operating theatres and community "home" simulated environments to engage with real members of the public.

Our Radiotherapy students benefit from our virtual environment radiotherapy treatment room (VERT).

Many of our industry partners offer placements, so you'll learn in real-world settings, improving lives and safeguarding futures every day.

council

Humanities

We offer innovative cultural journeys that will help you view the world in a whole new way. Many of our courses allow you to combine subjects so you can shape your degree around your personal interests.

There is also the option to study a language, with beginner and more advanced classes available.

Our TESOL students get hands on experience teaching English language to fellow international students who wish to take part.

Creative Writing students can join our free writing academy and enter competitions in poetry, prose, fiction, drama and short stories.

Languages you can learn include:

- French
- German
- Japanese
- Mandarin
- Spanish

Law

Our on-campus, full scale replica mock crown courtroom allows students to practise mock trials in a realistic setting.

There are a range of pro bono activities to get involved in, including volunteering at our Hertfordshire Law Clinic to provide free advice to the local community.

You will also have the opportunity to represent the School in both national and international competitions for mooting, trial advocacy, client interviewing and

mediation. Our students regularly beat teams from Oxbridge and Russell Group universities and win national trophies.

The curriculum is enriched with guest lectures, masterclasses, field trips, and opportunities to spend time studying abroad during your degree.

Authority

Life & Medical Sciences

Our £50m Science Building houses specialist laboratories where you'll use research technologies including pharmaceutical manufacturing equipment, cell culture facilities and aseptic suites. For students studying Nutrition, there are also dietetics labs for food analysis.

Our observation laboratory, complete with remote-controlled cameras, two-way mirror and digital edit suite is the perfect setting for psychology projects.

Final year Sports Therapy students can also conduct clinical assessments, treatment and rehabilitation in our on-site Sports Injury Clinic.

Royal Geographical Society
with IBG

Advancing geography and geographical learning

Physics, Engineering & Computer Science

You'll be taught by exceptional academics from across the STEM spectrum. Our graduates have worked for NASA, Ferrari, Amazon and Morgan Stanley to name just a few!

Engineering students benefit from our supersonic wind tunnels and our driving and flight simulators. There is also the opportunity to join the Formula Student racing team and compete against other universities.

Computer Science students have access to specialist software labs, including artificial intelligence and robotics suites. We even have a robot house for research into assisted living!

Our Bayfordbury Observatory is one of the best astronomical teaching observatories in the UK, giving students hands-on experience with our range of optical, radio and solar telescopes. We also have LiDAR and particle counter facilities.

**Ranked 10th nationally
for Engineering:
Electronic and
Electrical**
(The Guardian, 2020)

Where advanced research and placement are available, only one can be selected.

Additional Options

Combining Subjects

If your course has the option to combine with other subjects, the choices will usually include:

- A language
- English Literature
- English Language
- History
- Creative Writing
- Journalism
- Media
- Film
- Philosophy

Please check our main course page for confirmation and more information:

College Lane Campus

How to Apply

Once you have decided that the University of Hertfordshire is the right institution for you, you can read through our International Guide and our website for full details how to apply.

You can make your application via our approved representatives or you are able to complete our application form which can be found on our website:

[herts.ac.uk/international](https://www.herts.ac.uk/international)

Our admission tutors review each application on a case by case basis. With your application form you'll need to send us the following documents:

- An academic reference
- A personal statement, outlining why you wish to study in the UK, at Hertfordshire and why you wish to do the course you've chosen and how this matches your career aspirations
- A scan of your passport photo page
- A scan of all of your academic qualifications
- A scan of your English language qualification

Please refer to our website for further guidance visit:

[go.herts.ac.uk/int-before-you-apply](https://www.herts.ac.uk/int-before-you-apply)
