STUDENT Support

"INTO SLU teachers are always available to help. If I don't understand something, my professors advise me to take advantage of the English Language Center. They care about you, and they will work with you to teach you and work through your essay(s). Sometimes, people need more time to understand the language. They are there to help you. I am not a number here. My professors take the time to get to know my abilities, weaknesses and skills."

Dagmar, Panama
Academic English

"INTO SLU has professional academic courses on speaking, writing and reading. The teachers are really good and very understanding. There are times where we want to say something in English, but we cannot. There are words that we don't know how to say in English. Our teachers work with us to help us say what we are trying to say, and then fix our sentences. They do this by giving us examples, and offering suggestions on how we can say what we are trying to communicate."

Ha Na, South Korea
Academic English + Graduate Pathway MBA

"Saint Louis University's Jesuit mission not only prepares me as a professional, but also as a virtuous person. INTO SLU helped me a lot, by offering academic language courses to match my English to a domestic student level. It also offered classes such as University 101 in American culture. After graduating from the pathway program I decided to apply for both a University 101 peer instructor and an Office of International Services culture liaison position."

Marcos, Brazil
