

ROCHESTER
INDEPENDENT COLLEGE

Prospectus

ROCHESTER
INDEPENDENT COLLEGE

Prospectus

“The excellence of what you’re doing – and the integrity, passion, pragmatism and good humour with which you appeared to be doing it – convinced us it was the right place for our son.”

Parent

A Warm Welcome to Rochester Independent College.

Rochester Independent College is a school like no other. Our unique campus and friendly staff make the college feel more like a home than a school. There is no uniform, no bells ring, and everybody is on first-name terms.

However, that doesn't stop Rochester from being one of the top schools in the UK for student progress at A-level. And it doesn't stop us preparing our students for success: their hard work and first-class results mean they go on to win places at a wide range of top universities.

Most students at Rochester Independent College join us from Kent, London, and other areas around the UK. However, we welcome a small percentage of international students every year, who contribute

diversity and global perspectives to the college. No matter where our students are from, they find Rochester to be a place that lets them search for their own answers, voice their opinions, and think critically, creatively and independently.

We warmly welcome you to see for yourself what Rochester can offer.

The Rochester Independent College Team

Alistair Brownlow

Principal

Our Principal Alistair Brownlow joined Rochester Independent College in 1997 after teaching English in Russia and Romania. Educated at St Andrews and Glasgow, Alistair teaches A-level English Literature and advises students on university applications.

Ian graduated with a first-class combined honours degree in History and Politics from Lancaster University and joined Rochester in 2011. He is Head of Sixth Form and advocates a student-focused approach to teaching – with great academic success.

Ian Pay

Vice Principal

Kelly joined Rochester in 2002 and was previously Head of Art. She has a degree in Visual Communications from Leeds University. She worked commercially before joining Rochester and became Head of Lower School in 2015. Kelly is also an examiner for the AQA exam board in Art and Design.

Kelly Flatman

Vice Principal

Maeva joined Rochester in 1998 and has a degree in Italian from Reading University. She has taught English as a Foreign Language at the college and has many years of experience overseeing the education and welfare of international students in our boarding community.

Maeva Elliott

Vice Principal Head of Pastoral and Welfare

RIC at a Glance.

A few of the reasons that students love Rochester Independent College:

- Rochester is one of the top schools in England for student progress at A-level, according to government league tables.
- On average, re-take students improve two grades per subject.
- 42% A*- A, 72% A*- B and 92% A*- C grades in A-Level in 2020 with a non-selective intake.
- 40+ subjects to choose from at A-level, with any combination possible.
- Full boarding on campus – students have single rooms with some en-suites.
- 37 minutes from London St Pancras by direct high-speed train.
- Flexible one- or two-year GCSE and A-level courses with September, January, and April start dates.
- Student population 75% UK, 25% international students.
- Every year, Royal Thai Government Scholarship students join Rochester and achieve outstanding results.
- Top 10 university placements including Cambridge, Leeds, Nottingham, Exeter, and Imperial College.
- Rochester has an excellent track record of helping students win a place on competitive courses such as Medicine and Dentistry.
- Good Schools Guide awards for Mathematics, Chemistry, Film Studies and English Literature.

At RIC I felt like the teachers actually wanted to hear my opinions: they challenged us to think in different ways. I gained so much happiness and confidence. Everyone was there to work hard, but it didn't always feel like work because it was really enjoyable!"

Rebecca Dolman, student

Academic Study.

Students have a huge choice of subjects at Rochester – and can study them in any combination..

What is learning like at Rochester Independent College?

- Teaching is similar to a seminar or tutorial at university. Rather than individual desks, students gather around a table where tutors encourage them to discuss different aspects of a topic critically.
- Classes are an average of just eight in size, and students have between six and eight hours of contact time per subject, per week.
- All students in Sixth Form have a Personal Tutor who they meet with regularly to discuss progress, targets, and future aspirations. Students also receive one-to-one tutorials and study support sessions, where they can address any areas for improvement.
- Formal reports are regularly sent to parents, and Personal Tutors can be contacted via phone or email with any questions or concerns.

Courses

A-levels (Sixth Form)

A-levels are the main school-leaving qualifications in Britain, and are globally respected. At Rochester, three or four A-levels are studied over two years from a choice of 40+ different subjects, with no restrictions on the combination that can be taken.

GCSEs

GCSEs are the precursor qualification to A-levels and are usually taken in multiple subjects (from a choice of around 30) over two years. There are some minor restrictions on the combinations of subjects that can be taken for GCSE study.

Rochester offers variations on the main two-year A-level and GCSE options, including:

- One-year A-level courses
- A-level preparation programmes
- Re-takes of qualifications for students who wish to improve upon past results.
- One-year GCSE courses

English Language Teaching

Expert English language support is readily available to international students who would like to improve their language skills or prepare for an IELTS exam. Classes are timetabled alongside academic subjects, and students work in groups with those at a similar level

for the best possible progress. 80% of our students are native English speakers, which means it is natural for all our students to use English as a common language, improving their language skills.

University Support.

Winning a place at a top university is challenging, but our programme of tailored support gives students the best chance of success. A typical programme may run as follows:

Beginning of Year 12/A-level:

A Personal Tutor is assigned to every student in the Sixth Form to offer careers support and guidance on UCAS personal statements, applications, and references.

Year 12 Autumn Term:

International students prepare short talks about themselves and their plans for the future. This helps them articulate their aims and get quality feedback from a variety of sources.

Year 12 Autumn Term:

Visits to top universities in London such as the London School of Economics (LSE) and University College London (UCL), as well as UCAS exhibitions to learn about the different courses on offer.

Year 12 Spring and Summer:

Students attend personal statement workshops for guidance on careers, universities, and suitable summer holiday activities and work experience.

Year 12 Spring and Summer:

Students may also receive guidance and support from industry-leading experts at our sister companies at Dukes Education specialising in Oxbridge, Ivy League & US, Medicine, and Law applications.

Beginning of Year 13:

Personal Tutors, Heads of Sixth Form, and specialist UCAS staff work with every student individually to create strong university applications in the year before they apply.

“We send our best students who have all been awarded Thai Government Scholarships to RIC with the expectation that they will all be taught to the highest standard and be well looked after. Many of them go on to Oxford, Cambridge, UCL, and Imperial.”

Julia Plaistowe

Office Of Educational Affairs, The Royal Thai Embassy, London

University Destinations.

The college’s strong results mean that each year we send a number of departing students on to study at top UK universities and Art schools. In recent years these have included:

Computing, Imperial College London	Law, London School of Economics
Dentistry, Bristol University	Mathematics, Cambridge University
Economics and Mathematics, Leeds University	Medicine, Oxford University
Film Studies, Warwick University	Natural Sciences, Cambridge University
History, King’s College London	Psychology and Philosophy, Oxford University
Law, Exeter University	Veterinary Science, Liverpool University

The abundance of creative Arts provision and teaching also means that many students progress directly to Fine Arts degrees at top institutions without a foundation year. In recent years, students have gone on to study Art, Media, Music, or Film at:

BIMM	UAL Central St Martins
Falmouth University	UAL London College of Fashion
Istituto Marangoni	University of Creative Arts
Kingston University	UCL Slade School of Art

For the full list of university destinations, go to the back of the prospectus.

Life at Rochester.

Situated in the beautiful and historic city of Rochester, our enclosed campus provides a safe and welcoming home for all students.

Rochester is situated 37 minutes southeast of London by train in the county of Kent. With its charming cobbled high street, castle, cathedral, and a range of vintage shops, bookstores, and cafes, the city is an idyllic place to study. It also enjoys excellent transport connections, with Gatwick Airport 50 minutes away by car and Heathrow Airport 70 minutes. For Paris and Brussels, the Eurostar can be boarded at Ebbsfleet International just 10 minutes away.

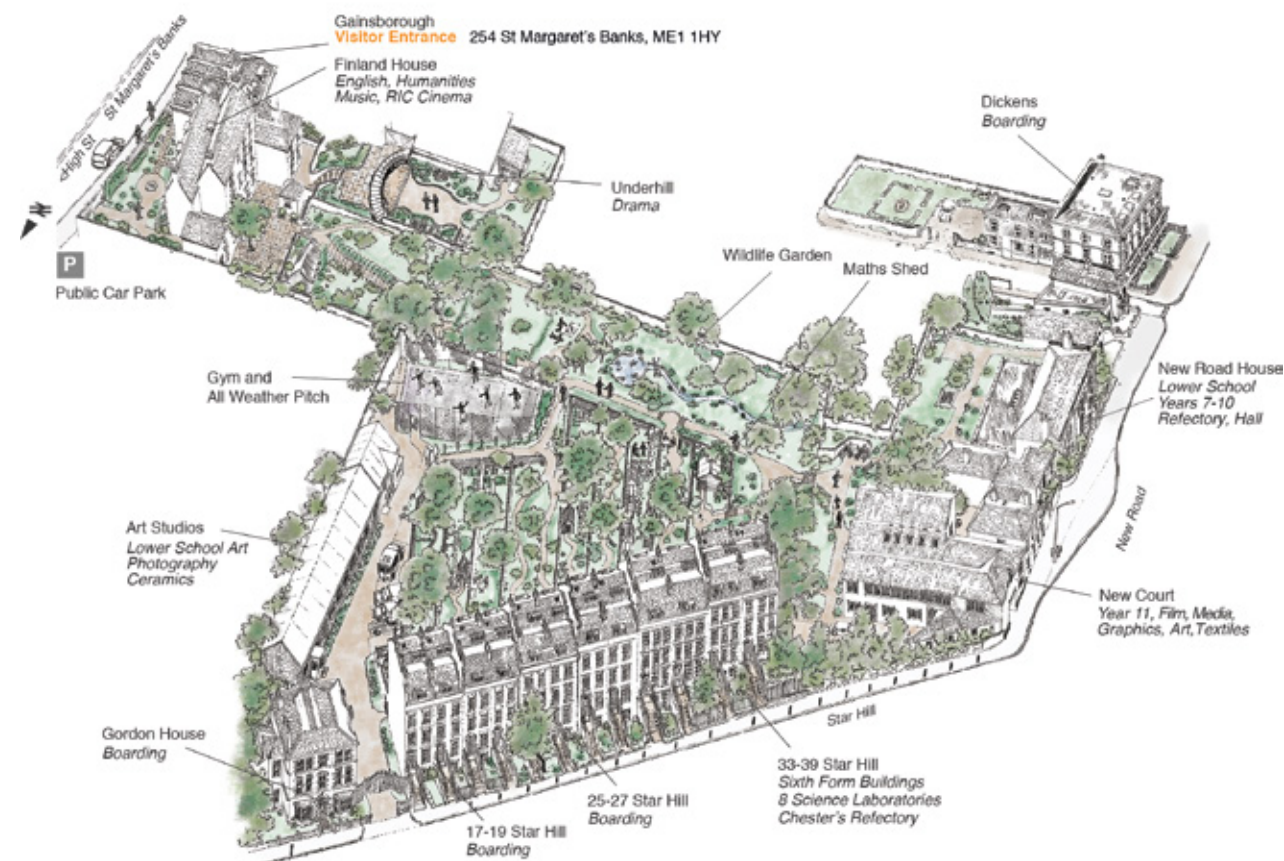

The college itself is based in our enclosed campus of historic Georgian buildings. Our award-winning gardens, student allotment, underground theatre space, singing musical gates and Mathematics garden house all add to the college's unique and homelike atmosphere.

-  37 mins by train
-  Gatwick: 50 mins by car
-  Heathrow: 70 mins by car

Campus Map.

Our closed campus provides a safe and secure environment for students.

Rochester offers the perfect place to study. The charming high street, historic castle and cathedral, and convenient location mean students feel welcome and safe while being able to visit London easily.

Boarding & Student Care.

At Rochester we know that academic and personal development comes naturally to happy students.

We make student welfare our priority and aim to create a place where everyone feels welcome. At Rochester, teachers treat students like adults, building mutual respect. The result is that many students say they have never been happier at school.

International students are fully integrated in all aspects of the college. From academics to life outside the classroom, Rochester has an inclusive, unified student body.

Life as a Boarder

Up to 100 of the 345 students at the college board each year. As boarding pupils, students will be part of a close, supportive community. Students all live on-site in single rooms (with some en-suites available) and breakfast, lunch, and dinner are freshly prepared on the premises. Boarding houses also have comfortable common rooms where film nights and other social activities take place every week. House Parents (Tutors who live in college) are always on site, ensuring there is someone to talk to and oversee the students at all times.

Support and Wellbeing

Student care at Rochester is based on developing each student's interests and helping them achieve as much as they possibly can. Personal Tutors have regular meetings to monitor students' wellbeing and discuss progress, targets and future aspirations.

“I came to RIC shortly after moving to England from Lithuania. The informal nature of RIC made it feel welcoming – a place where you were heard, seen, and cared about. The staff were not only inspiring teachers but also friends who supported my artistic development for four years.”

Ginte Barzdaityte

who won a place at UCL's Slade School of Fine Art after a foundation year in Fine Art at Central Saint Martins.

Outside the Classroom.

Our students have a huge choice of activities and clubs outside of lessons, for enrichment, personal development... or just for fun!

Rochester also organises trips outside college, designed to link students' academic studies to the wider world. These create a broader and more rounded understanding of a subject, which in turn can give students an advantage in their university applications. Activities have included visits to galleries and museums in London, trips to Bath and Shakespeare's Stratford, a graffiti tour around east London, a hiking trip to the Brecon Beacons, and a day at Brands Hatch Racing Track.

Clubs

The college offers clubs from chess, coding, drama, textiles, and film to yoga, photography, running, and basketball. We also frequently create new clubs when students express an interest.

Sports and Fitness

All students are encouraged to stay fit and active. On site, Rochester has its own astroturf pitch and gym. The college also uses Medway Park – a multi-million-pound sports facility with swimming pool, athletics track, sports centre, fitness suite, and spa.

The Arts

Rochester is one of the leading creative boarding schools in the UK, and our Arts staff are all practitioners with industry and studio experience in Filmmaking, Fine Art, Illustration, Graphic Design, Digital Media, Photography, Fashion, and Textiles. The school also has its own 100-seat theatre for small-scale productions.

Music

Individual Music lessons are run in conjunction with Kent Music School and there are many practice rooms onsite. Musical groups are active in college and there is a Rochester Summer Festival where Performing Arts students often showcase their talents.

“After RIC I was accepted at the Professional Conservatory of the Stella Adler Studio of Acting in New York. Looking back I think the most important thing that RIC taught me is to love the process of learning. I’m sure that if I hadn’t studied at RIC I wouldn’t be where I am now.”

Irina Bravo, student

Applications.

Our only entrance requirement is your determination to work hard.

Rochester achieves superb results despite being non-selective in admissions. In our experience, students can succeed at Rochester regardless of success at previous schools.

We are also flexible enough to be able to enrol students right through the academic year, and can often help when students need to change schools at short notice.

Complete our international application form

Forward this form to **admissions@dukeseducation.com** along with results of any public examinations already taken, recent school reports and teacher's references, birth certificate, and passport

Once we have read these, you may then be asked to attend a Skype™ interview or college visit

Offer of a place

Acceptance of offer and payment of the deposit to secure your place

Recent Awards.

We're always aiming to be the best that we can be.

The college and its students are proud to have received the following awards:

- Good Schools Guide awards for Mathematics, Chemistry, Film Studies and English Literature
- Top Award in the UK for the 50th Royal Society of Chemistry Olympiad
- Student artwork selected for Royal Academy A-level Summer Exhibition
- Winner of ISA Essay Prize
